USER DESCRIPTION

For the person description for our system, Jostyn will be our assistant.

Jostyn is a sixth-year student at Colegio Simón Bolívar. He is about to start classes in his school year, so he is looking for a place to shop for his school supplies.

Jostyn has found our stationery service, in which he asked us for a supply list, which contains 6 checkered university notebooks, 3 pens, one black, red and blue, 4 transparent cover folders, 1 pencil and an eraser.

In our work team we have a web page which will be of greater help to Jostyn, so that he can have a more comfortable user experience and can be from his house.

Jostyn can make purchases from him through our website where you can see the items available in the stationery as well as the price and details of each one of them.

On the page you must register in order to have access to the benefits provided, you will find different sections that we have, which are Writing and Notebooks, Office and Folders and finally Details and Gifts. Jostyn will find on the website a telephone number and the address of the premises.
