Luis is a student of the Information Technology Engineering career, he needs some notebooks for the exact sciences subject, he remembers that there is a stationery store near his house, and out of curiosity he looks on the internet if it has a website, it turns out that it exists. He browses the website in search of notebooks, and the variety that the stationery offers, among the products he sees a notebook of his favorite brand, so he decides to add it to the cart to buy, and thus Luis is spared from leaving home to buy some notebooks, since the delivery will be made to your home.
