User Description

For the description of the users, we have taken users who can enter our page and look at the products they offer, such as office products, school supplies and even gifts.

Our user's name is Melissa, she is a student at the university of the armed forces "ESPE", she is in the civil engineering career, studying 4 semesters. Our user wants to acquire tools for the race, such as 2B and HB pencils, ballpoint pens, as well as sheets in A3 and A4 format to make drawings, boards, set of rules, compass, radiograph.

Considering the on the page designed with the mentioned products, and in fact many more products, the web page is divided into 3 main sections, so that our client has the facility to search for all the tools she needs for her career and has information about the physical location of our business. as well as direct contacts.

To finish, Melissa can buy in our shopping cart all the tools she wants, and an invoice will be made that will include the price per unit, and a total. She can pay with a credit card, or we give her the facility that at the time of delivering the entire purchase she can pay in cash. Melissa has acquired her products in an easy, agile, and safe way.
